Overview

With over 35 years of experience in Sauna Cabin manufacturing we pride ourselves on bringing our customers fantastic quality sauna cabins at affordable prices.

Sauna cabins provide a haven of tranquillity, a place to unwind, cleanse your body and refresh your mind. We offer a range of cabins from one person domestic cabins up to 20 seat commercial models.

Use a spare room or convert a garage or loft, most models can be tailored to customer sizes and are available with full or partial glass front or sides, please contact our technical advisors. We also offer a bespoke design service and site surveys, please see our Bespoke

Design page for further information or contact our design team.
All cabins come complete with a full height safety glass door, benches, a traditional rock sauna heater, accessories, fittings, installation instructions and a user guide. Upgrades for sauna heater and digital controls are available for all sized models.

Constructed from only the finest quality timber sourced from trusted merchants, all of our cabins are designed for easy installation, no plumbing or drainage, plastering or building work, all that is required is a space that leaves a 25mm air gap all around the cabin and a suitable electrical power supply.

Commercial and Domestic cabins are supplied direct and can be delivered to anywhere in Europe.

Oceanic

Commercial Cabins

Club and commercial models are supplied with a tanalised timber base frame to lift the cabin off the floor and protect against lying water. A double thickness framing to the benches cater for the load of extra bathers completed with a timber door with triple brass hinges. complete with a glass door and frame, the door is also available in a disabled access width.

Heavy Duty Commercial

For larger busier establishments we have designed a range of heavy duty commercial cabins to solve the problem of excessive usage in well used clubs and leisure centres.

The cabin height is increased to 2200mm allowing for an optional third tier of benches which gives more comfortable access for more people. Panels are made using thicker 16mm claddings on both sides of the framing for strength, durability and robustness. Heavy duty benches and disabled access door as standard, with the option of a floor standing or the more modern behind the bench heating system which provides a more user friendly environment. Chose from our large range of heavy duty heaters with specially designed specially designed control and keypad for commercial use.

Celebration Model Domestic & Commercial

Backrest, headrest, floor mat bucked, ladle , light, shade, thermometer / hydrometer, towel and fragrance rack with four fragrances. All installation materials, fixings, screws nails and brackets included with comprehensive instructions for assembly, maintenance and use.

Deluxe Model Domestic and Commercial

Knot free Abachi timber (that remains cooler to the touch) for the benches, backrests, headrests, heater guard and floor mat, hand crafted bucket and ladle, low voltage lighting system and improved deluxe accessory pack including combined thermometer / hygrometer, sauna clock, large house glass sand timer, towel and fragrance rack with four fragrances.

All cabins come with accessories and fittings and are for indoor use only. Commercial and domestic cabins are supplied direct and can be delivered to anywhere in Europe.

Oceanic

Bench Material

We offer a choice of Standard or Deluxe specification Sauna Cabins, the major difference in these two specifications is the timber used for the benches, back rests, head rests, floor mates and heater guard

Standard Timber

Our standard timber is a white pine commonly used in traditional sauna cabins. This pine has small knots dotted throughout the timber which matches nicely with the panel claddings and is a popular choice for many of our customers.

Deluxe Timber

Our deluxe Abachi timber comes from a tropical African tree. Abachi timber is particularly popular for use in sauna cabins due to its lack of splinters or resin, most particularly however its low heat retention makes it an ideal choice as the material stays cooler to the touch, reducing the need for use of towels in the cabin.

All of our Saunas are manufactured in the UK using kiln dried spruce sourced from managed forests certified by the FSC

Sauna Doors

From left to right:

Sauna glass door with hinges

Sauna Glass Door 615mm x 1875mm
also available in 900mm 1875mm

Sauna Wooden Door 615 x 1875

Oceanic

Sauna Heaters

Modern Oceanic sauna heaters with advanced features, digital controls and sequential heating. Suitable for both domestic and commercial applications.

The new range feature stylish brushed stainless steel outer case for an improved appearance and increased durability. For a day long operation floor standing heavy duty heaters have large rock capacity for trouble free operation.

Remote controls allow for salon supervision of the cabin temperature

Heavy duty controller

Heavy duty control box

Wall mount sauna heater

A new addition to the range of sauna heaters is the behind bench heater. The narrow profile unit is designed to be mounted behind a false wall in order to give maximum space inside the cabin. Available for domestic and commercial in a range of outputs.

Oceanic

Sauna Accessories

Every sauna cabin is supplied with a complete sauna accessory pack. Celebration and Deluxe specifications vary slightly

Lamp and Shade

Our celebration sauna lamp and shade comprises an anti explosion lamp with a wooden shade

Sand Timer

15 minute sauna sand timer.

Celebration

Bucket and Ladle

Essential oils can be mixed with water and ladled over the rocks in order to increase the humidity inside the cabin which allows the user to feel the heat more directly

Celebration

Thermometer & Hydrometer

The thermometer measures the temperatures of the cabin whilst the hydrometer measures the amount of water in the air

Celebration

Sauna Clock

To be positioned on the outside of the sauna cabin

Fragrance Rack & Fragrances

4 x 125ml bottles of SaunAroma© fragrances on a wooden rack with convenient towel hooks

Back Rest and Floor Mat

Wooden slatted head rest and floor mat

Celebration

Sauna Rocks

15Kg of Sauna rocks to be used within the traditional sauna heater

Celebration

Oceanic

Optional Extras

We offer a variety of optional extras that can be added onto the sauna cabin, these are not essential for functionality of the sauna however they may improve user experience.

Glazing

It is becoming increasingly popular to specify glazed panels in the sauna. We offer a choice of half and fully glazed panels. Please speak to a member of the sales team if you are interested in glazing panels.

Feature Wall

The feature wall is a panel clad on the interior face and tiled on the interior face with travertine mosaics, it is positioned behind the sauna heater.

The feature wall not only brings more style to the cabin but also helps to reflect the heat and prolongs the life of this panel which is exposed to excessive levels of heat.

We now also offer our feature wall option with split face slate

Herb Bowl

The herb bowl hangs above the sauna heater as it steadily steams it provides an increase in the cabin humidity. Users can mix raw essential oils, fresh herbs, citrus fruits or even Himalayan salts with the water in the bowl to add a new dimension to the bathing experience

Bench in fills and Bench Lighting

Boxing in the benches with bench in fills offers an aesthetic improvement to the cabin, often customers opt to have below bench lighting in conjunction with the bench in fills as they produce a more subdued and relaxing ambience.

Speakers

Playing music in the sauna cabin can add to the relaxation experience. It is possible to add speakers at low level in the traditional sauna cabin

Chromotherapy

Boxing in the benches with bench in fills offers an aesthetic improvement to the cabin, often customers opt to have below bench lighting in conjunction with the bench in fills as they produce a more subdued and relaxing ambience.

Oceanic

Domestic Range

All sizes are + or - 10mm.
Please allow for a 25mm air gap all around all cabins

The bench door and heater positions can be varied in most bays, in addition we can adapt our cabins to suit individual situations. We can change the length, width or height dimensions, we can slope the roof or angle the walls etc. Please discuss requirements with our technical staff
